

Sustainable Community Development Step 5: Identify Sources of Help¹

M.E. Swisher, Sandra Rezola and James Sterns²

Overview

This document contains lists of resources for developing a sustainable community. There are two lists, one containing national resources and a second containing Florida resources.

Identify Sources of Help

State, federal and private programs may be available to assist your community in developing, funding and implementing sustainability projects. The following list, while by no means exhaustive, provides links to resources that may assist your community in identifying technical and funding assistance for a sustainability initiative.

National Resources

- **EPA's Office of Sustainability Ecosystems and Communities:** This office is involved in developing and supporting demonstration projects, tools, and policies that support community-based environmental protection activities. In addition, the EPA created a *Guidebook of Financial Tools: Paying for Sustainable Environmental Systems*, a directory

of means to fund environmental protection and restoration activities.

- **U.S Department of Energy's Center of Excellence for Sustainable Development:** This center provides resources and funding opportunities for sustainable development initiatives. <http://www.sustainable.doe.gov/>
- **U.S Department of Commerce's Economic Development Administration:** EDA's mission is to generate jobs, help retain existing jobs, and stimulate industrial and commercial growth in economically-distressed communities. Their web site provides grant requirements, and program and funding information. <http://12.39.209.165/xp/EDAPublic/Home/EDAHomPage.xml>
- **EPA's Office of Solid Waste and Emergency Response:** This office is involved in brownfields cleanup revolving loan fund programs that provide financial assistance for the environmental cleanup of brownfields and also funds assessment demonstration pilot programs
