

Nursery List for Tropical Fruit Trees ¹

Andrew J. Rose, Jr. and Jeanne L. Ethridge²

The nursery information contained in this publication was compiled from responses to survey questions that were mailed to 419 nurseries. A list including nurseries licensed in Florida was provided by the Division of Plant Industries, Florida Department of Agriculture. This list included all nurseries licensed in Florida. From this list, nurseries reporting under Other Fruits and Nuts, Wholesale, Wholesale and Retail, and those stocking more than 500 plants were chosen. Some nurseries reported that they sold retail only, therefore, were not included. The rest of the responses were edited to include the information pertaining to the purpose and title of this publication. Nurseries growing deciduous fruit trees were also selected from the 419 nurseries surveyed and the information obtained from those nurseries is reported in another publication, *Nursery List for Deciduous Fruit Trees*, located online at <http://edis.ifas.ufl.edu/CN009>.
