**Calendula officinalis** Calendula, Pot Marigold

Edward F. Gilman and Teresa Howe

**Introduction**

A hardy annual, from southern Europe, the pot marigold is one of the most reliable cool season annuals. Flowers are single or double and usually yellow or orange. Pot marigold will grow one to two feet tall and require full to partial sun. As an herb the petals are much prized for their coloring and flavor. The colonists used the petals to color butter and cheese and added the dry petals to soup for flavor. In USDA hardiness zones 9b, 10, and 11, *Calendula officinalis* is generally planted in the fall for winter and spring color.

**General Information**

- **Scientific name:** *Calendula officinalis*
- **Pronunciation:** kuh-LEND-yoo-luh off-fiss-in-AY-liss
- **Common name(s):** calendula, pot marigold
- **Family:** Compositae
- **Plant type:** herbaceous
- **USDA hardiness zones:** all zones (Fig. 1)
- **Planting month for zone 7:** May
- **Planting month for zone 8:** Mar; Apr; Sep; Oct
- **Planting month for zone 9:** Mar; Nov; Dec
- **Planting month for zone 10 and 11:** Feb; Dec
- **Origin:** not native to North America
- **Uses:** container or above-ground planter; mass planting; cut flowers; attracts butterflies; culinary
- **Availability:** somewhat available, may have to go out of the region to find the plant

**Description**

- **Height:** 1 to 1.5 feet
- **Spread:** 1 to 1.5 feet
- **Plant habit:** round
- **Plant density:** dense
- **Growth rate:** moderate
- **Texture:** medium

**Foliage**

- **Leaf arrangement:** alternate
- **Leaf type:** simple
- **Leaf margin:** entire
- **Leaf shape:** ovate
- **Leaf venation:** not applicable
- **Leaf type and persistence:** not applicable
- **Leaf blade length:** 2 to 4 inches

Calendula officinalis Calendula, Pot Marigold

Leaf color: green
Fall color: not applicable
Fall characteristic: not applicable

**Flower**
Flower color: yellow; white
Flower characteristic: showy

**Fruit**
Fruit shape: no fruit
Fruit length: no fruit
Fruit cover: no fruit
Fruit color: not applicable
Fruit characteristic: inconspicuous and not showy

**Trunk and Branches**
Trunk/bark/branches: not applicable
Current year stem/twig color: green
Current year stem/twig thickness: medium

**Culture**
Light requirement: plant grows in full sun
Soil tolerances: clay; sand; acidic; loam
Drought tolerance: unknown
Plant spacing: 6 to 12 inches

**Other**
Roots: not applicable
Winter interest: not applicable
Outstanding plant: not particularly outstanding
Invasive potential: not known to be invasive
Pest resistance: long-term health usually not affected by pests

**Use and Management**
