**Introduction**

Globe amaranth produces small, globe-shaped flowers in shades of purple, pink, yellow, or white (Fig. 1). The purple form is most common in retail nurseries. Most horticulturists utilize globe amaranth in a mass planting spacing them 12 to 18 inches apart. Others use them as small specimens in rock gardens or plant them in containers. They are also attractive planted in a row along a walk or patio as an edging plant. Flowers can be dried for indoor use if cut just before they are fully opened. The plant grows 18 inches tall and prefers full sun and a moderately dry soil. Globe amaranth is resistant to heat and should not be over watered. It provides bright color to a garden or landscape where irrigation will be limited.

**General Information**

*Scientific name:* *Gomphrena globosa*

*Pronunciation:* gom-FREE-nuh gloe-BOE-suh

*Common name(s):* globe amaranth

*Family:* Amaranthaceae

*Plant type:* annual

**USDA hardiness zones:** all zones (Fig. 2)

**Planting month for zone 7:** Jun; Jul; Aug

**Planting month for zone 8:** May; Jun; Jul; Aug; Sep

**Planting month for zone 9:** Apr; May; Jun; Jul; Aug; Sep

*Origin:* not native to North America

*Uses:* border; edging; mass planting

*Availability:* generally available in many areas within its hardiness range

**Description**

*Height:* 1 to 2 feet

*Spread:* .5 to 1 feet

*Plant habit:* round

*Plant density:* dense

*Growth rate:* slow

*Texture:* medium

Foliage
- Leaf arrangement: opposite/subopposite
- Leaf type: simple
- Leaf margin: entire
- Leaf shape: oblong
- Leaf venation: not applicable
- Leaf type and persistence: not applicable
- Leaf blade length: 2 to 4 inches
- Leaf color: green
- Fall color: not applicable
- Fall characteristic: not applicable

Flower
- Flower color: white; pink; purple; yellow
- Flower characteristic: showy

Fruit
- Fruit shape: no fruit
- Fruit length: no fruit
- Fruit cover: no fruit
- Fruit color: not applicable
- Fruit characteristic: inconspicuous and not showy

Culture
- Light requirement: plant grows in full sun
- Soil tolerances: acidic; sand; loam; clay
- Drought tolerance: moderate
- Soil salt tolerances: unknown
- Plant spacing: 12 to 18 inches

Other
- Roots: not applicable
- Winter interest: not applicable
- Outstanding plant: not particularly outstanding
- Invasive potential: not known to be invasive
- Pest resistance: long-term health usually not affected by pests

Use and Management
Propagation is by seed planted directly into the garden or started early indoors.

Pest and Diseases
Globe amaranth is free of most pest and disease problems.
